

Expert New Home Insulation

In these days of constantly fluctuating energy costs, you want your new home to be as efficient as possible. Let Illinois Valley Insulation provide expert advice on how to get the most out of your new construction or project.

- Individual residences
- Residential subdivisions
 - Custom homes
- Office and light commercial spaces

We are specialists in installing a range of insulation types, including cellulose, blown fiberglass, polyurethane spray foam, and others.

Get Good Advice When You Remodel

If you're staying in your place but updating a kitchen, bathroom, or any other space, we can give you insulation advice and handle any size project. We also specialize in the re-insulation of older homes and commercial buildings.

For a consultation appointment, contact us or call 815-875-1901 today. Our owner is a certified BPI home energy auditor, trained in methods of improving energy efficiency in a range of applications.
